# Offers speed and saf

## Achieved the maximum machine speed at 7,000 rpm.

The machine runs fastest in the world a long distance, such as hemming bottoms of T-shirts and similar garments, thus increasing production.

## New design that ensures safety for the operator

The driving parts conventionally located on the front of the arm have been totally enclosed. Your operators work feeling at ease with the resultant increase in production and quality.

### Specifications

<b>No. of needles:</b>	2 ~ 3 needles
<b>No. of threads :</b>	3 ~ 5 threads
