

# W522A-01Fx264

2-needle, flatbed, double chainstitch machine with top cover thread for attaching side pocket facing

*Reduces the number of operations from two to one.*

Attaching side pocket facing

- For attaching side pocket facings on pocket openings of men's wear, jeans, etc. This machine reduces the number of operations two to one. No other machine is needed for this operation, which previously required serging the facing and attaching it to the pocket on a lockstitch machine. One less operation means a great reduction both in time and labor, and an increase in output.
- Features special gauges which make the machine easily adaptable to a variety of sewing conditions. Easy-to-thread looper thread guide slides to the operator with the lever, thus increasing productivity.
- Adjusting lever to adjust the differential feed; pushbutton to adjust the stitch length.
- Micro-adjusting screw on the looper holder can make a fine front-to-back adjustment on the lower looper.

#### Optional Devices

KH008A...Flat type vacuum chain cutter

Equipped with a horizontal suction inlet immediately behind the presser foot to trim the thread chain neatly. This feature adds to the efficiency of the operation.

TK321...Pneumatic tape cutter

180-degree rotating tape cutter positioned horizontally to the bed increases the working space. Can perform an attaching side pocket facing operation more smoothly.

#### Specifications

No. of needles	No. of threads	Needle space (mm)	Max. stitch length (mm)	Diff. feed ratio	Foot lift (mm)	Max. speed (rpm)
2	5	6.4	3.3	0.5~1.3	7	5,000
